FORTHCOMING BOOKS

SMALL CHANGE - Anyone who has used the J J North or Seaby catalogues soon discovers that the halfpence and farthings cannot be made to fit the classification devised for the pence. Paul & Bente Withers have therefore devised a new classification and are producing a series of identification guides to the fractional coins, Edward I to the Commonwealth, based on the coins in the David Rogers and other collections. Each will be £10 incl post. The first will be ready soon, the others will follow in due course.

THRYMSAS, SCEATTAS AND STYCAS OF NORTHUMBRIA: An Inventory of Finds recorded, to 1997  E J E Pirie  92pp A4 Card covers. £30
This is a much-extended edition of the short paper included in Anglo-Saxon Monetary History (M Blackburn, ed.; Leicester, 1986). The register now comprises no fewer than 298 substantive entries, relating to hoards, excavation-finds and specimens without site-context, recovered both within the two provinces of Northumbria and beyond. Eighteen distribution-maps; ninety-four coins illustrated alongside the relevant text. One short appendix reviews the incidence of connected discoveries of Carolingian coins; another surveys the current evidence of the so-called styca-weights. The bibliography is extensive.

The Royal Mint: a Tradition of Excellence

An invitation to join The Royal Mint Coin Club

Coin collecting is now one of the most keenly pursued of all hobbies. In order to satisfy the demands of the modern collector, the Royal Mint has established its own coin club, which provides its members with the latest information on new coins from home and abroad. Recognised as being among the supreme examples of the minter's art, Royal Mint collector coins, often struck in precious metals, form a tangible record of our heritage.
